Note:

first think i wanna confess :
i'm not chinese nor can i speak or read chinese
i translated this manhua from the vietnamese version
the character's name in this manhua is how the pronounce them in vietnamese, changing them back to how they speak in chinese is beyond my skill, so i just leave the name, how it is in vietnamese, hope you guys can bear with it^^

that's all i have to say
thx for reading.
